1. BACKGROUND

1.1. Context and background

Heifer International Rwanda (HIR) is a Nonprofit and International Non-governmental Organization with the mission to alleviate hunger and poverty, while caring for the environment through sustainable agricultural practices. In collaboration with the Government of Rwanda and other relevant partners, this project has now grown to cover the whole country to become the flagship program known as “one cow per poor family”.

Heifer International Rwanda projects focus on improving income and nutritional status, mobilizing farmers, and promoting local capacity through training of project participants, promoting market linkages for dairy value chain actors, improving the quality of livestock through artificial insemination services, empowering rural women, building resilience through sustainable agricultural practices, and connecting local communities to business development services.

Heifer International Rwanda partners with smallholder farmers to build sustainable livelihoods by empowering them to use their own energy, ingenuity, and dreams to fuel their success out of hunger and poverty. Heifer programs mobilize communities and foster the organization of associations, cooperatives and social networks while strengthening their capacity to address development challenges.

1.2. Overview of PRISM Project

The Partnership for Resilient and Inclusive Small Livestock Markets “PRISM” is a five-year project whose overall objective is to reduce poverty by empowering poor rural men, women, and youth to participate in the transformation of the Rwanda livestock sector and to enhance their resilience. This will be achieved by focusing on food security, nutrition and empowerment of women and youth in a sustainable and climate-resilient small livestock value chain development. Specifically, the project seeks to increase competitiveness and profitability of the small livestock sector for the provision of quality products from smallholder producers to domestic and regional consumers, thus improving their livelihoods, food security and nutrition whilst building overall resilience.

PRISM is a partnership programme implemented by the Government of Rwanda through RAB/SPIU, and jointly supported by IFAD and ENABEL, with Heifer International as an implementing partner and co-financer. PRISM is constituted of two complementary interventions, supported respectively by IFAD and ENABEL, whose content and strategies have been aligned, and which will be implemented jointly, under a common implementation mechanism. Heifer will implement activities in the framework of the IFAD supported interventions.
